mahadih.netlify.app

AI Engineer and Web Developer with a robust foundation in NLP and Deep Learning. Skilled at executing end-to-end technical lifecycles ranging from fine-tuning RAG-augmented LLMs to deploying scalable React applications. Proven leader capable of driving research innovation and fostering technical communities as President of the ULAB Computer Programming Club.

EXPERIENCE

Teaching Assistant

9/2023 - 3/2024

Department of Computer Science and Engineering, University of Liberal Arts Bangladesh

Part-time

- Assisted faculty members in teaching Computer Science concepts, ensuring student comprehension.
- Provided academic support to students, clarifying concepts and answering questions.
- Supported faculty in preparing course materials, including documents, sheets, and slides.
- Assisted with administrative tasks such as exam invigilation and grading.

EDUCATIONAL QUALIFICATION

Bachelor of Science in Computer Science and Engineering

2021 - 2025

University of Liberal Arts Bangladesh

CGPA: 3.53 on a scale of 4.00

- Capstone Project: Fact-checking with Large Language Model for Low-Resource Language Bangla
- Major: Data Science

Higher Secondary Certificate

2017 - 2019

Dhaka Imperial College

GPA: 4.92 on a scale of 5.00

RESEARCH PUBLICATION

S. Kabir, A. Masud, M. Hasan, S. Sunny, M. A. Pramanik and S. Chakraborty, "A Transformer Based Approach for Analyzing Scrapped E-Commerce Product Reviews from Social Media Platforms with Explainable AI," 2024 27th International Conference on Computer and Information Technology (ICCIT), Cox's Bazar, Bangladesh, 2024, pp. 2110-2115, doi: 10.1109/ICCIT64611.2024.11022190.

M. Hasan, J. Gomes, A. Masud, S. Kabir, and N. Mansoor, "A Collaborative Framework for Evidence-Grounded Misinformation Detection in Bengali Using Retrieval-Augmented Large Language Models," 2025 IEEE International Women in Engineering (WIE) Conference on Electrical and Computer Engineering (WIECON-ECE), Cox's Bazar, Bangladesh, Dec. 2025.

S. Kabir, J. Gomes, M. Hasan, A. Masud, and N. Mansoor, "A Multimodal Framework for Misinformation Detection in Bengali Using Large Language Models," 2025 IEEE 4th International Conference on Robotics, Automation, Artificial-Intelligence and Internet-of-Things (RAAICON), Dhaka, Bangladesh, Nov. 2025.

PROJECTS

Chef-LLM: AI-Powered Recipe Generator

[Link](#)

Description: Built a React-based culinary application integrating Perplexity AI to generate context-aware recipes from user-defined ingredients in real-time.

Tech Stack: React 18, Vite, Perplexity AI API, Netlify.

Big Data Stock Market Forecasting (Hybrid CNN-LSTM)

[Link](#)

Description: Engineered a scalable pipeline merging 1.4M news headlines with historical stock data to train a hybrid CNN-LSTM predictive model using Apache Spark.

Tech Stack: Apache Spark, TensorFlow (CNN-LSTM), VADER Sentiment, Python

Scalable PCA on Higgs Boson Dataset (11M+ Records)

[Link](#)

Description: Implemented scalable dimensionality reduction on the 11-million-record UCI Higgs dataset using Apache Spark MLlib to optimize large-scale classification efficiency.

Tech Stack: Apache Spark MLlib, PySpark, Python

Pyramid Tie Collection (B2B E-Commerce Platform)

[Link](#)

Description: Developed a B2B e-commerce platform with dynamic product filtering and SEO optimization.

Tech Stack: HTML5, CSS3, JavaScript (ES6+), Swiper.js

TECHNICAL COMPETENCIES

Programming Languages: Python, C, C++, Java, JavaScript

Artificial Intelligence & Machine Learning:

- Core Concepts:** Supervised Learning, Unsupervised Learning, Deep Learning (CNNs, RNNs, LSTMs, Transformer Architectures), Model Training & Evaluation, Hyperparameter Tuning, AI Agents
- Natural Language Processing (NLP):** Large Language Models (LLMs), Parameter Efficient Fine-Tuning (PEFT), RAG, Sentiment Analysis, Fact-checking, Text Preprocessing, Bangla BERT, Prompt Engineering

Web Technologies: HTML, CSS, React, Tailwind, JavaScript,PHP

Data Analysis, Visualization & Big Data: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Data Cleaning, Exploratory Data Analysis, PySpark, Distributed Computing, Data Warehousing, Data Lakes, ETL Processes, Data Streaming,

Tools & Platforms: GitHub, Kaggle, Canva, WordPress, MS Office (Excel, PowerPoint, Word), Filmora, Adobe Illustrator, Adobe Photoshop, Orange AI, LaTeX, Kaggle, Colab, Zotero, Mendeley

Web Scraping: BeautifulSoup, Scrapy

Methodologies: Agile, Scrum, Waterfall

SOFT SKILLS

Critical Thinking	Work Ethic	Teamwork	Active Listener
Problem Solving	Adabtable	Leadership	

CO-CURRICULAR EXPERIENCE

- President, ULAB Computer Programming Club**

3/2024 - 3/2025

 - Led and managed the ULAB Computer Programming Club, fostering a dynamic environment for coding learning and competitive programming.
 - Launched and oversaw numerous tech-focused events, including workshops and seminars on Machine Learning, Cyber Security, and Web Development.
 - Orchestrated 'Coderhunt', a semester-long competitive programming event, which resulted in a 5-fold increase in the number of competitive programmers within the club.
 - Secured strategic collaborations and Memorandums of Understanding (MOUs) with prominent organizations such as Robi Axiata, Creative It, BongoDev, Programming Hero, and Data Station 360, significantly expanding club resources and opportunities for members.
- Publication Secretary, ULAB Computer Programming Club**

3/2023 - 3/2024

 - Managed the club's social media presence and created engaging digital content, driving increased traffic and online visibility.
 - Recognized as "Best Executive" for outstanding contributions to the club's outreach and public relations efforts.

CERTIFICATIONS

AI/ML & Data Science:

- Prompt Engineering & AI with ChatGPT (Udemy)
- Machine Learning with Python (freeCodeCamp)
- Data Analysis with Python (freeCodeCamp)
- Data Science: Bootcamp (Udemy)
- ChatGPT for Data Science and Machine Learning (Udemy)
- AutoML Automated Machine Learning BootCamp (Udemy)
- Probability and Statistics In Data Science (Udemy)

Tools & Other Technical Skills

- Master Git and GitHub - Beginner to Expert (Udemy)
- Cybersecurity Workshop (Creative IT Institute)
- The Fundamentals of Digital Marketing (Google Digital Garage)

Web Development

- The Frontend Developer Career Path (Scrimba)
- Responsive Web Design (freeCodeCamp)
- Introduction to Back-End Development (Meta)
- Introduction to Front-End Development (Meta)

ACHIEVEMENTS

- 
- Solved 200+ programming problems across platforms, including Beecrowd, Codeforces, LeetCode, and others.
 - Ranked among the top ten problem solvers in Beecrowd for total problems solved within ULAB.
 - Runner-up in the Take-off Programming Contest 2021 arranged by the Department of CSE.
